***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Groups I, claims 1-9 and 13, drawn to a method of producing a water-developable photopolymer plate for letterpress printing exposure step, a development step and post-exposure step, wherein the photopolymer plate is brought in contact with a liquid comprising a modified silicone compound and/or a modified fluorine compound.

Group II, claims 10-12, drawn to a developer comprising a modified silicone compound and/or modified fluorine compound.

Group III, claims 14-16, drawn to a water-developable photopolymer plate comprising silicone on a surface thereof in a relative amount element concentration of 0.1 at% or more.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I or Group III do not require a developer as required by Group II, Group I or Group II do not require a silicone on a surface as required by Group III, Group II or Group III does not require a exposure step as required by Group I.

2. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).

Art Unit: 1795

3. The election of an invention may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48 (b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
